'In-contact' dogs/possible exposure:</p> <ol style="list-style-type: none"> 1. Dogs within the same household of a dog showing clinical signs of CIRD must follow rule 9.11A. 2. All 'in-contact' dogs must not race for a minimum period of 10 days following potential exposure to CIRD. 'In-contact' in this case is defined as knowingly being in direct dog to dog contact, or indirect contact, which includes racing in the same division as the symptomatic dog, sharing a water bowl, bed, tennis balls or other items that could potentially be contaminated. 3. Potential exposure is not limited to UKFL© Events. Rule 9.11A applies to any dog that has been in contact with a dog exhibiting clinical signs of CIRD outside of a UKFL© Event. <p>D. Clinical signs of CIRD: Clinical signs and symptoms of CIRD include some or all of the following: coughing, retching or repeated sneezing, sometimes accompanied with dyspnoea, ocular discharge, nasal discharge, pyrexia, lethargy, inappetence, (and in severe cases collapse). Most cases show only mild, self-limiting upper respiratory tract symptoms, although some cases can become more serious and involve infection of the lower respiratory tract.</p> <p>E. CIRD Vaccination: Vaccination against 'kennel cough' is not compulsory. Vaccinated dogs must not attend a UKFL© Event for 14 days following vaccination. The vaccine reduces but does not eliminate the risk of a dog contracting CIRD, however signs are likely to be milder.</p>	Updated after consultation with vets team	2.5
